Subject: Visit of Colonel Sheffield Edwards

Dear Roland:

The Director of Security, Colonel Sheffield Edwards, is planning to visit you in London on or about the tenth of February. His itinerary is somewhat flexible and he will call you when he arrives. I would like very much for Colonel Edwards to visit Caversham and he has said that he will. I will leave it up to you whether you meet him in London with the automobile or whether you take the train. In some ways it seems to me the automobile trip might be pleasant for him and would provide an opportunity to talk to him in greater privacy than would the train. Colonel Edwards would like to meet Mr. Campbell and I have asked that he talk to John a little bit about the necessity of having a statement from him on the security clearances of BBC people being posted for tours of duty at FBIS headquarters or the domestic bureaus.

Colonel Edwards remembers having met you in California when you were there. He is a very good friend of this organization and his many years of experience in dealing with our security problems has given him a very good background in FBIS operations and problems.

If I learn more concerning his time of arrival I will notify you in a clear text message merely making reference to the 10 February visitor.

Sincerely,

[Redacted]
Chief, FBIS
